

The Terraco logo is positioned at the top of the image. It features a dark blue horizontal bar. On the left side of this bar are five white slanted parallel lines. To the right of these lines, the word "TERRACO" is written in a bold, white, sans-serif font, followed by a registered trademark symbol (®).

////// TERRACO®

The Terralite logo is located in the bottom left corner. It consists of a dark red, rounded rectangular shape. Inside this shape, the word "Terralite" is written in a white, sans-serif font. Above the text, there are several small, dark red, teardrop-shaped icons arranged in a curved line.

Terralite™

PREMIUM QUALITY STONE COATINGS

Terraco Group is a leading manufacturer of construction finishing materials, operating in Europe, Middle East, and Asia.

Terraco's Terralite stone coatings provide a wide selection of stone effect finishes and colours, offering a variety of design patterns. These water based wall coatings are highly durable and weather resistant.

Terralite™

Premium quality stone coatings that provide long-lasting and highly decorative wall finishes.

Terralite Fine

Granular Natural Stone Coating

Granular natural stone coating created from finely graded natural coloured marble chips, bound in a transparent new generation resin.

Areas of use:

- » Concrete
- » Cement render
- » Lightweight concrete
- » Cement fibre boards
- » Sprayplasters
- » Gypsum dry wall
- » Chipboard

Perfect for:

- » Exterior applications
- » Interior accent or feature walls
- » New work and renovation / retrofit projects
- » All types of buildings - residential, commercial, leisure, educational, pre-fabricated, boundary walls and more

COATING THICKNESS	1.5 - 2.0mm
SPECIFIC GRAVITY	1.70
PACKAGING	25kg plastic pails
STORAGE	12 months in original unopened containers

GUIDELINE SPREAD RATES Onto cementitious substrate, cement fibre board.

P Primer Pigmented	0.15-0.2 kg/m2
Terralite Undercoat	0.2-0.3 kg/m2
Terralite Fine	2.5-3.5 kg/m2
Material consumption may vary depending on substrate conditions	

Terralite Fine

LONG-LASTING DECORATIVE **WALL FINISHES**

Terralite FlexStone

Multicoloured Stone Effect Coating

Multicoloured coating that combines the use of coloured marble chips with colour flake for a stone-effect exterior and interior coating.

Areas of use:

- » Concrete
- » Cement Render
- » Wood

Perfect for:

- » Exterior and interior facades
- » New work and renovation / retrofit projects
- » Industrial and commercial complexes
- » Housing complexes

COATING THICKNESS 0.8 - 1.0 mm

SPECIFIC GRAVITY 1.28

PACKAGING 20kg plastic pails

STORAGE 12 months in original unopened containers

GUIDELINE SPREAD RATES

Onto cementitious substrate, cement fibre board.

P Primer Pigmented 0.15-0.2 kg/m²

Terralite FlexStone 1.2-1.5 kg/m²

Material consumption may vary depending on substrate conditions

Terralite™

TERRALITE FINE

HOW TO USE - NEW WORK

1. Roller apply 1 coat of Terraco P Primer Pigmented and allow to dry.
2. Roller apply 1 coat Terralite Undercoat and allow to dry.
3. Apply Terralite Fine with a steel trowel. Finish with a wet trowel to achieve a smooth and even surface.

HOW TO USE - RENOVATION / RETROFIT

1. All cracks, chips, voids and damages should be repaired with appropriate filler.
2. Prepare surface by removing loose or flaking paint, grease, dirt and grime.
3. Spot prime exposed areas appropriately.
4. Proceed as per new work.

TERRALITE FLEXSTONE

HOW TO USE - NEW WORK

1. Prime surfaces with 1 coat of Penetrating Primer Plus Pigmented.
2. Apply Terralite FlexStone using a steel trowel and allow to set for 2 minutes and finish with a wet trowel to get smooth and even finish.

HOW TO USE - RENOVATION / RETROFIT

1. All cracks, chips, voids and damages should be repaired with appropriate filler.
2. Prepare surface by removing loose or flaking paint, grease, dirt and grime.
3. Prime surfaces with a coat of Penetrating Primer Plus Pigmented.
4. Proceed as per new work.
